###### Directorate of Transport

###### Specifications for luxury and air-conditioned buses

It is hereby informed for the information of the members of the public that the State Transport Authority, Goa, Daman and Diu, in its meeting held on 18-11-1975 has approved the following specifications for the luxury and air-conditioned buses:

(1) Seating capacity — maximum 35.

(2) Where seats are placed across the vehicle and are facing in the same directions, there shall be space of not less than 84 cms. minimum measured between back to back. There shall be provided for each passenger comfortable seating space of not less than 40 cms. square and backs of these seats should be of reclinable type and having a height of not less than 62 cms. so as to support the whole back and head of the passenger. The seats should be push back and have brackets and handrests for each seat. The seats should be upholstered with foam rubber cushions attractively covered with P. V. C. leather cloth or moquette or any

approved fabric. The seat cushions thickness in front shall be minimum 10 cms. tapering to 7 cms. to the rear.

(3) Body.—Body of all metal or of composite constructions:

- (a) Steel frame with aluminium paneling both for exterior and interior, or
- (b) All aluminium construction.

The bodies should be of two walled construction i.e. interior and exterior paneling. The space in between to be suitably insulated with fibre glass, 'thermocole' felt or any other suitable thermal insulation material.

(c) The roof shall be of 19 SWG. half hard aluminium alloy sheets. The joints should be of lap joints riveted through the roof sticks by two rows of rivets at proper pitch. The overlap of the panels should be equal to the whole width of the roof sticks section. The front panel should always come on the top of the rear panel. After completing the roof paneling the roof should be laid with proper quality of water proof fabric. Water gutter should be fitted at can rail height to divert drain water.

In the case of air-conditioned vehicles, the construction to be water-leak proof, dust proof and maximum air-leak proof is necessary. The power plant for operating air condition and other equipment is to be installed in the rear of the body for which purpose a compartment of 5 cms. minimum and 10 cms. maximum width should be provided.

(d) The flooring shall be of suitable aluminium floor planks or aluminium plain sheet of 8 SWG. (The floor shall be covered with linoleum with pleasing colour in the case of air-conditioned buses). The floor plate should be fastened to the under frame members with 1 cm. diameter granadised M. S. Hex. bolts and nyloc nuts. The floor plates should be so laid and fastened as to make the floor entirely dust proof.

(e) The passenger door shall be of at least 76 cms. in width. It should be provided at the front end. The door shall be of flap type or sliding type and the hinge should be located at the front. The door shall conform to the outside contour of the body. Door handles should be of sunken type. The lock and tower belt should be provided both for the driver's door and for the passenger door.

(f) Interior luggage carrier:—Two light luggage racks should be provided on strong Chromium plated bracket fitted from each pillar for keeping passenger's hat and other light luggage. The luggage rack should be fitted at cant rail height.

(4) The following amenities shall be provided in a luxury bus namely:—

(a) Electric fans of 30 cms. sweep swelling type should be fitted in the interior of the coach at the appropriate place. There shall be a minimum of 8 numbers of such fans. But, control switch of this electric fans should be provided on the drivers instrument panel.

(b) A radio-cassette with loud speaker should be provided at a suitable place in the interior of the coach. The radio control shall be located near the conductor seat on the dash board.

(c) A thermo jug type of water tank with pleasing colour should be provided at suitable place in the interior of the coach.

(5) Paint—The vehicle to be painted with synthetic enamel paint through paint finishing with nitrocellulose paints would be preferable in view of the fact that this presents a better finished gloss and durability:—

Overall length ...	Upto 9 m. 14 cms.
Overall width ...	Upto 2 m. 50 cms.
Overhang ...	60% of the wheel base.
Head room ...	Not less than 1 m. 75 cms. but height under gangway should be 1 m. 83 cms.

(6) Windows:—

- (1) Half-lift window.
- (2) Half-dropped window.
- (3) Double-sliding window.
- (4) Single-sliding window.
- (5) Full drop window.

} Any one of the type.

(7) Internal lights.—8 lights minimum—Bulb 20 watts.

(8) Driver's seat.—Adjustable 10 cms. horizontal and 10 cms. vertical.

Back.—Not less than 22 cms. with nylon netting.

(9) Emergency exit:—Required as door on off side.

(10) Driver's Seat:—

- (a) Comfortable for long continuous journey.
- (b) Adjustable so that a driver of any height or stature can adjust its position to suit himself best.
- (c) Having a well designed back rest so as to give adequate support to the driver's back, thus minimising strain on him during long spells of driving.
- (d) The part of the seat against which the driver's back rest shall not be less than 28 cms. from the nearest point on the steering wheel.
- (e) Seats:—Adjustable 10 cms. horizontal and 10 cms. vertical.
- (f) Arm rest for the driver not more than 10 cms. wide may be provided.
- (g) The compartment should be separated by suitable rigid partition of expanded metal or adequately spaced metal bars both on the sides and on the rear so as to isolate the driver without obstructing the vision.

The vehicle shall be so constructed that save from the front pillar of the body, the driver shall have a clear vision both to the front and through an angle of 90° to his right hand side. The front pillar of the body shall be so constructed as to cause the least obstructions to the vision of the driver.
